GENERAL INFORMATION

Veneers

All exposed surfaces are maple veneers selected and matched to provide consistency.

Worksurfaces

Tops are 1 1/2" thick 3-ply balanced construction with a choice of three edge details.

Drawers

All drawers are 5 sided vinyl wrapped with 1/2" thick sides and bottoms. All slides are heavy duty, ball bearing, and full extension.

Drawer Hardware

Three styles are available in two finishes (black or satin silver).

Locking

Locks are standard on all pedestals and files in choice of two finishes (black or satin silver). Lock finish will match finish of pulls (below).

Finishes

Six different finishes are available with Mobilia's multi-step post catalyzed varnish finish process.

Grommets

Bridges and returns have two grommets installed (1 in top and 1 in back panel) at no upcharge. All credenzas have two grommets installed (1 in top and 1 in back panel) at no upcharge.

Mobilia can provide and factory install grommets for other items. The additional charge for factory installed grommets is \$140.00 list. Please specify GB (black) or GS (satin silver).

WARRANTY & CARE

10 Year Warranty

MOBILIA warrants its products to the end user, to be free from defects in material and workmanship, under normal care and usage for a period of ten (10) years. MOBILIA will repair or replace at our option, without charge to the end user, any product or part thereof that is determined to be in material or workmanship defect to the following terms.

MOBILIA makes no warranties, either express or implied except as shown above.
MOBILIA will not be liable for incidental or consequential damages.

Care and Maintenance

Fine wood furniture has a natural beauty and lasting quality, which is easily maintained under normal conditions. A primary attraction to fine wood is the ease with which touch-ups can be made by an approved refinisher.

Wood is a natural material which can change with age, light and daily wear. A few simple guidelines will help extend the beauty and life of your new furniture.

The use of top quality desk pads along with routine dusting of furniture with a clean, soft cloth is the easiest way to protect and maintain wood furniture. Every three months, we recommend using a mild, non silicone based product such as Formby, Weiman, or Guardsman Furniture Cleaner to remove surface contaminants. This can be done as part of your normal dusting maintenance and will dry in minutes.

- For heavier soiling, use of non-silicone based furniture soap can remove the build up of wax, polish, dirt, etc. Furniture soap will also remove stains from food and grease, as well as some rings from liquids such as water and alcohol. This should be followed with a non-silicone based furniture cream, which will condition and polish.
- Under no circumstances should a polish or wax containing silicone be used for cleaning or brightening the finish. The use of this type of substance will prevent the furniture from being refinished at a future time.
- Improper maintenance will void warranty terms.

FREIGHT

Allegro is priced in Five (5) different categories (columns on the pricing pages). Column 1 is for customer pick up at the MOBILIA factory.

MOBILIA has divided the continental United States into four (4) zones in order to help customers calculate costs prior to order placement. All pricing in zones 1-4 (columns 2, 3, 4, and 5 on pricing pages) includes freight, however, orders less than \$5,000.00 list will incur a small order charge (see map and grid on page 7 for further details).

List pricing for zones 1-4 includes prepaid freight by MOBILIA to one (1) destination within a specified zone. Pricing is based on a dock to dock delivery. Unloading, inside delivery, or installation is not included.

MOBILIA reserves the right to select the mode of shipping, carrier, and routing. See page 7 for freight schedule. All orders ship blanket wrapped. Products can ship crated, but will be subject to a crating charge. Please consult factory as the crating charge will vary based on the size and weight of product ordered.

Title of product shipped transfers when the merchandise is loaded aboard the carrier. Responsibility for loss or damage in transit ceases for MOBILIA when the carrier issues its receipt to MOBILIA.

It is the carrier's responsibility to process all claims for damaged products promptly. MOBILIA recommends the following guidelines and will assist any customer in filing a freight claim, if necessary.

1. Accept all shipments.
2. Open and inspect all furniture immediately upon delivery and note damages and/or shortages on Bill of Lading.
3. Notify carrier of damage within 10 days of receipt, in writing, if carrier is unable to make an inspection within the required time.
4. Retain all packing materials for carriers inspection.
5. Secure inspection report from carrier.
6. Submit all documents, along with a standard freight damage claim form to the carrier for resolution.
7. Contact MOBILIA to order the necessary product replacements or to obtain repair authorization.
8. Return of damaged shipments WILL NOT be accepted unless authorized by MOBILIA in writing.

Return shipments will not be accepted unless authorized by MOBILIA in writing.

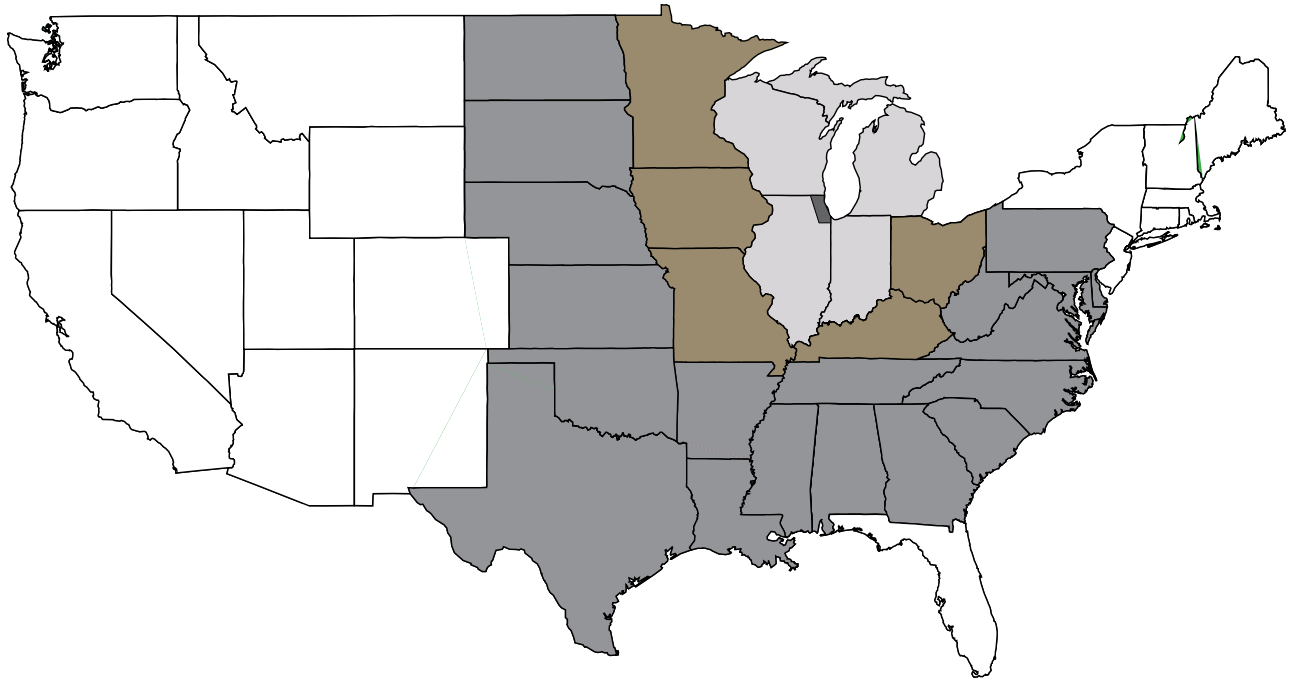

Products returned for reasons other than a damaged shipment may be subject to a restocking charge.

Arrangements to return product must be made within 15 business days of receipt of product.

Returned products must be shipped freight pre-paid and allowed, and must include a copy of MOBILIA's written authority.
